

### Directions for Cleaning of a Surface with Dr. KlarX Cleaner™

#### Where to Use:

1. This product is specifically designed for routine daily cleaning applications on many different surfaces including glass, stainless steel, tile, grout natural stones and many other surfaces.
2. Proper initial cleaning will remove undesirable oils and residues leftover by previous cleaning products.
3. Routine cleaning with **Dr. KlarX Cleaner™** will continue to increase the nano-polymer protection making surfaces easier to maintain.
4. **Dr. KlarX Cleaner™** contains our PreventX 24/7™ Technology. You will augment and reinforce your surface protection each and every time you clean.
5. This product is ideal for many different industries including lodging/hospitality, healthcare, food processing, automotive, transportation, childcare, education, commercial buildings, gaming, religious, government, recreation, and much more.

#### Supplies Needed:

1. Dr. KlarX Cleaner™ - Part Numbers: NEKCL21G16, NEKCL155GD
2. Water and spray applicator
3. Cloth types: Paper towels or microfiber cloth or other lint-free non-abrasive cloth.

#### Prepare Cleaning Solution:

1. This product comes in a concentrate and must be diluted using a ratio of 1:16. (2oz per quart/ 8oz per gallon)
2. Fill an empty bottle with water leaving room for the concentrate.
3. Pour concentrate into bottle and mix lightly.

#### Initial Cleaning of the Surface:

1. It is likely that existing oils and residues left by previously used cleaners are hidden within the surface pores.
2. **Dr. KlarX Cleaner™** will remove these hidden oils and residues but they may occasionally present themselves as a noticeable film after initial cleaning with **Dr. KlarX Cleaner™**.
3. Spray **Dr. KlarX Cleaner™** onto the surface and wipe off with a clean cloth using a buffing motion.
4. If a film is still noticeable on the surface, utilize a different clean cloth to clean the surface again.
5. Repeat this process until the film is no longer noticeable.
6. You now have a *clean surface free of hidden oils and residues*. Your surface is now properly prepared and ready for use and continued routine cleaning using **Dr. KlarX Cleaner™**.

#### Routine Cleaning of the Surface:

1. Apply **Dr. KlarX Cleaner™** to the surface to be cleaned.
2. For more heavily soiled areas, allow the solution to stand on the surface for one to two minutes.
3. Utilize a clean cloth and wipe off with a buffing motion.

#### Tips:

1. When using on glass or reflective surfaces, apply **Dr. KlarX Cleaner™** to the surface and wipe off with a paper towel or cotton cloth.
2. Do not use cloths that contain residue or oils from other cleaners.
3. For heavy soap scum, hard water deposits and/or soil buildup, utilize our **Dr. KlarX+ Cleaner™** for easy removal.
