

EnCap™ Odors

EnCapX™ Odor is designed to drastically reduce organic gases emitted from manholes, using our advanced Encapsulation Technology. This unique media blend absorbs escaping gases, eliminating odors at the source. With an all-natural plant extract and a micro-fractionalizing process, it not only neutralizes contaminants but also supports indigenous bacteria for improved environmental impact. Outperforming carbon filters by 8–10 times, EnCapX™ Odor is ideal for odor remediation in sanitary sewer lines, grease interceptors, oil/water separators, and more. Plus, its heavier composition ensures long-lasting effectiveness while being 40% more cost-effective than traditional carbon systems. Upgrade to EnCapX™ Odor for superior, reliable, and affordable odor control

Features

- White
- In granule form
- Lightweight
- Easy storage
- Non-toxic
- Controls odors before it escapes

Benefits

- Easy installation vs. carbon systems
- Media can last up to 3 months
- Utilizes all-natural plant extract technology
- Ongoing maintenance is simple and cost-effective
- One 30-gallon drum will sufficiently treat twelve (12) manholes

- **Sizes:** 30-gal drum
- **Appearance:** Off White Granules
- **Fragrance:** N/A as it's an odor absorbent
- **pH:** 6.5 – 7.5
- **Non-Flammable**
- **Keep Dry Before Use**
- **Storage:** Between 40 F and 110 F
