

HandSani4U Hand Sanitizer was specifically formulated to ensure maximum effectiveness while enjoying soft, non-cracking skin. HandSani4U is FDA compliant, non-alcohol based with moisturizing features that eliminates 99.99% of germs within 15 seconds. HandSani4U has been independently tested against many organisms including MRSA, E. Coli, C. Difficile, Pseudomonas Aeruginosa, Salmonella, Listeria, and many more.

The difference between HandSani4U and all other sanitizers is that it contains the technology used to build our PreventX 24/7™ as an inactive ingredient in the formulation.

The presence of the PreventX 24/7™ technology enhances the ability of the benzalkonium chloride (BZK) to remain on the hands even after routine hand-washings.

Hand Sanitizer

HandSani4U™

NON-ALCOHOL HAND SANITIZER

Kills 99.99% of germs within 15 seconds
Up to 4 hours of extended protection

- Eliminates the need for constant re-application of alcohol sanitizers
- Hypoallergenic, Non-Toxic, Non-Flammable
- Moisturizes and keeps skin's natural oils, protecting hands from cracking, leaving a soft refreshing silky after-feel and all this while eliminating that dreadful alcohol aromas
- Contains the technology found in PreventX 24/7™
- Extends germ fighting protection between hand washings
- Proprietary formula increases germ killing effectiveness over time and repeated use
- Protects against dirt, oil, and grease build-up between washings

16 FL. OZ (236mL)
