

## Directions for Application of *OdorCap*

### Where to Use:

1. This product is specifically designed to be used to reduce odor due to the release of Organic Gases from manholes.

### Supplies Needed:

1. OdorCap – 1/30 Gallon Drum PN JCEOC130GD
2. Manhole Insert – (Available through a Wastewater Management Supply Distributor)
3. Drill
4. Mesh

### Preparing the Manhole Insert:

1. Drill Holes in the Insert and then line with mesh using caulk to adhere mesh to insert.

### Application of OdorCap:

1. Remove Manhole cover.
2. Place prepared Manhole insert into hole.
3. Place approximately 2.5 gallons of OdorCap into the insert.
4. Replace Manhole Cover.
5. Replace OdorCap when the old OdorCap turns brown (approximately 90-120days)
