

Directions for Application of PreventX CCP

Where to Use:

1. This product is specifically designed to be used as a protective coating to prevent staining on carpets.

Supplies Needed:

1. PreventX CCP – 2/1 Gallon Bottles of 16x Concentrate PN JCCCP21G16
2. 32 oz Spray Bottle (Optional) and Rag/Towel
3. Carpet Cleaner
4. Water

Preparing the solution:

1. For Spot Cleaning - Place 2oz of Concentrate into the 32 oz bottle. Fill with water until it reaches the middle of the neck.
2. For Carpet Cleaner – Determine the size of the cleaning agent container. Dilute appropriately based upon size.

Application of PreventX CCP

Spot Cleaning

1. With the tip of the spray applicator 4 to 6 inches above the surface, apply the PreventX CCP over the entire spill.
2. Wait several minutes, then dab up solution and stain with a rag/towel.

Cleaning using a Carpet Cleaner

1. Prepare unit with solution and water as per manufacturer's requirements.
2. Complete cleaning per manufacturer's instructions.
