

NewEraSeal™ Fortify Sealer

NewEraSOS™ has successfully combined two emerging technologies to address multiple problems of surface protection against corrosion, soil adhesion, atmospheric fouling, abrasion, static, and UV degradation with “liquid glass” penetrating sealing. Employing a proprietary water-based fusion of nanotechnology-sized polymeric particulates, **NewEraSeal™ Fortify Sealer** works on all hard and soft surfaces both inside and outside. It delivers nano titanium dioxides and nano zinc oxides in fusion with specific nano polymers to densify and strengthen the surface without adding weight or dimension to the surface.

Features

- ASTM tested
- Formulated with Photocatalytic Technology
- Added Rust, Corrosion and UV Protection
- Water-based, Eco-Friendly, Ozone Safe
- No VOC's
- Non-flammable, Non-toxic
- Smooths Surfaces
- No Silicones, PTFE's, Oils, Waxes
- Viable to 600° F
- Surfaces Self Clean
- Enhances shine and matte finishes
- FAA Wind Tunnel Tested

Benefits

- Improve Carbon Footprint
- Improve Indoor Air Quality
- Extend Asset Life
- Reduce HVAC Expense
- Reduce Maintenance Cost
- Enhance Surface Appearance
- Surfaces Remain Easier to Clean
- Dries to a Clear and Polished Finish
- Drag Reduction on Vehicles, Watercraft, Aircraft
- Reduce Chemical Exposure
- Protect Existing Finishes
- **NewEraSeal™ Fortify Sealer** eliminates the need for other products that hide scaling and deposits.

- **Size:** 1-gal, 2/1-gal, 4/1-gal, Pails, Drums, and Totes
- **Appearance:** White Liquid
- **Fragrance:** Sweet Lemon
- **Ready to Use**
- **pH:** 7.0-8.0
- **Storage:** Between 40° F and 110° F
- **Compliance:** Full VOC – non pollutant for air, water, soil
