# EnCap™ Plus

A Multi-Functioning Dumpster Odor Eliminator

## Product Info

**EnCapX™ Plus** is a ready-to-use, plant-based odor eliminator specifically designed for use around dumpsters, trash receptacles, and outdoor storage areas.

**EnCapX™ Plus** contains our Encapsulation Technology that continues to break down deposits in between applications. **EnCapX™ Plus** can also be used as a degreaser on surfaces where fats, oils, and grease accumulate.

## Where to Use

- Dumpsters
- Trash Receptacles
- Outdoor Storage Areas
- Recycling Areas
- Loading Docks
- Fuel Islands

## Multiple Applications

Residential, Commercial, and Industrial. Safe enough for residential, strong enough for industrial.

## Industries

- Restaurants
- Industrial and Commercial Complexes
- Building Service Contractors
- Gas stations and fuel islands
- Processing Plants

## Benefits

- Easy spray and walk away application.
- Breaks down grease and reduces odors in one step.
- Contains Encapsulation Technology.
- Eliminate nuisances caused by flies.
- Bio-stimulant in formulation promotes biodegradation.
- Does not contain emulsifiers or free enzymes.
- Will continue consuming fats, oils, and greases after application.
- Extremely Versatile:
  - Odor control of dumpster sites.

- Odor and grease control of backdoor areas.
- Odor and grease control of grease recycle bins.
- Removal of odors, fats, oils, and grease from concrete and asphalt.
- Use as a heavy-duty degreaser to clean asphalt and concrete.

## How Does it Work?

Our unique plant-based Encapsulation Technology relies on micro-fractionalizing or the cutting of your fats, oils, and greases, then encapsulating them, using an all-natural plant extract. Once encapsulated, organics no longer stick to themselves or surfaces resulting in less odor and cleaner surfaces.

## Use Instructions

### General Odor Control

1. Dilute per instructions.
2. On a weekly basis, spray targeted surfaces ensuring all surfaces are sufficiently wetted.
3. Allow to air dry.
4. Adjust dilutions and frequency to achieve desired results.

### Long-Term Removal of Excess Fats, Oils, and Grease Buildup

1. Dilute per instructions.
2. On a weekly basis, spray targeted surfaces ensuring all surfaces are sufficiently wetted.
3. Allow to air dry for at least 24 hours.
4. Pressure wash areas.
5. Spray targeted surfaces after pressure washing.
6. Adjust frequency to achieve desired results.

## Short-Term Removal of Excess Fats, Oils, Grease Buildup

1. Dilute per instructions.
2. Spray targeted surfaces ensuring all surfaces are sufficiently wetted.
3. Allow to absorb into surfaces for 15 minutes.
4. Scrub or pressure wash area.
5. Repeat as necessary to achieve desired results.

## Dilution Recommendations

### Regular Maintenance:

Dilute 1-quart concentrate with 3 quarts water to make a 1-gallon solution.

**Extreme Odors and Buildup:** Use Concentrated.

## First Aid

Skin: Rinse with soap and water.

Eyes: Rinse with water for several minutes.

Ingestion: Rinse mouth with water and consult a physician.

## Caution

Refer to SDS prior to use.

KEEP FROM CHILDREN. HARMFUL IF SWALLOWED. USE PPE.

Keep the container closed. Do not ingest.

**Sizes:** 4/1-gal bottles, 5-gal pail, 55-gal drum, 275-gal tote)

**Appearance:** Deep Green Liquid

**pH:** 9-10

**Flash Point:** Same as Water

**Solubility:** 100% Soluble in Water

**Stability:** Stable
