# Dr. KlarX<sup>TM</sup> Neutral 7

All-Purpose Daily Environmentally Friendly Spot Free Cleaner

## Product Info

**Dr. KlarX™ Neutral 7** is a neutral all-purpose cleaner concentrate that incorporates the latest environmentally friendly Green technology in detergent developments. This advanced formula ensures easy spot-free rinsing, delivering fast and effective cleaning that remains consistent regardless of hard or cold water conditions.

Safe for all hard surfaces, this cleaner will not leave behind hard water stains, film, or scum. **Dr. KlarX™ Neutral 7** is ideal for daily use, effectively removing dust, dirt, and light staining from both interior and exterior surfaces.

In addition to its powerful cleaning capabilities, it is gentle enough to ensure that it will not damage or alter the appearance of the surfaces it is used on. Whether you're maintaining floors, countertops, or bathroom fixtures, this versatile cleaner provides a reliable solution for a spotless and pristine environment. Its eco-friendly composition also makes it a responsible choice for those looking to reduce their environmental footprint while achieving superior cleanliness.

## Applications

### Everyday Floor Maintenance

For vinyl, rubber, and asphalt tiles, linoleum, terrazzo, marble, and plastic use, use a 1 to 4 dilution of concentrate to water. Will not make the surface slick or slippery.

### Greasy Floor in Kitchen or Food Processing Plant:

Use a 1 to 3 dilution of concentrate to water.

### Cars, Trucks, Boats, Aircraft, Windshields:

Use a 1 to 5 dilution of concentrate to water.

### Chrome, Vinyl, Painted Walls, Fiberglass, Plexi-Glass, Plastic:

Use a 1 to 5 dilution of concentrate to water.

### Marble, Granite, Polished Stone:

Use a 1 to 5 dilution of concentrate to water.

### Porcelain and Other Bathroom Hard Surfaces:

Use a 1 to 5 dilution of concentrate to water.

### Glass Windows:

Use a 1 to 6 dilution of concentrate to water.

### General cleaning:

This product can be diluted at a ratio of 1 part concentrate to 25 parts of water for power washing and for general light cleaning.

## Industries Served

Residential Commercial, Industrial

## Features

- Versatile cleaner for routine-daily cleaning
- Water-based, non-corrosive, non-toxic
- Light-fresh fragrance.

## Benefits

### Environmentally Friendly:

Incorporates the latest Green technology in detergent developments, making it an eco-friendly choice.

### Effective Cleaning:

Provides fast and effective cleaning that is not affected by hard or cold water, ensuring consistent results.

### Spot-Free Rinsing:

Leaves no hard water stains, film, or scum, ensuring surfaces remain spotless.

### Versatile Use:

Safe for all hard surfaces, both interior and exterior, making it suitable for a wide range of cleaning applications.

### Daily Use:

Ideal for daily cleaning to remove dust, dirt, and light staining, maintaining a clean environment.

### Surface Safe:

Will not damage or alter the appearance of surfaces, preserving their original look.

### User-Friendly:

Easy to dilute and use, with clear instructions for various applications.

### Reduces Environmental Footprint:

Its eco-friendly composition helps reduce the environmental impact of cleaning activities.

These benefits make **Dr. KlarX™ Neutral 7** a reliable and responsible choice for maintaining cleanliness in various settings.
