

Dr. KlarX™ Spot & Stain Remover

Nano-Enhanced BioChemistry Ensures Deep Penetration Spot Cleaning

Product Info

Dr. KlarX™ Spot and Stain Remover

is ready-to-use and is specifically designed for manual spot cleaning. This cleaner uses nano-enhanced biochemistry ensuring deep penetration allowing stubborn soils to simply float away. It contains no carbon tetrachloride, naphtha, benzene, kerosene, gasoline, animal fat or other hazardous solvents that produce toxic fumes. It is VOC free and safe for the environment.

Contains an **EPA registered Antimicrobial** to meet the needs of all industries to clean and protect fabrics (in one process) from contaminants and deterioration caused by microbial development, odor producing bacteria, mold, and mildew.

Reinforce your surface protection each and every time you clean and realize immediate return on investment by reducing labor costs and extending the life of your fabrics.

Where to Use

Fabrics: Cotton, Linen, Wool, Polyester, Corduroy, Flannel, Silk, Denim, Rayon, Fleece
Carpets: Safe to use on Nylon, Wool and Stain Resistant Carpets

Primary Applications

Formulated to Treat the Toughest of Stains

- Grease and oil stains.
- Dirt and mud stains.
- Ketchup and coffee stains.
- Soft drinks and chocolate stains.
- Urine and blood stains.
- Vomit and organic food stains.

Features

The use of Nano-Enhanced biochemistry combined with an EPA registered Antimicrobial in the formulation allows soft surfaces to:

- Become more durable
- Maintain efficient wicking
- Eliminate deep stains and odors
- Maintain increased moisture protection
- Eliminate fraying of fibers
- Reduce compacting
- Increase mat protection
- Reduce allergens
- Extend life of your soft surfaces and carpet

Benefits

- Nanotechnology Drives Cleaning Agents Deep into Surface
- Eco-Friendly Formulation
- Ozone Safe and Full VOC Compliance
- Surfaces become More Durable
- Increased Wicking Performance
- Increased Moisture Protection
- Reduce Fraying of Fibers
- Reduce Compaction
- Hydrophobic
- Anti-Static
- Low Foaming

Use Instructions

Fabric Spot and Stains

1. Spray onto soiled area.
2. Allow 2-3 minutes to penetrate and loosen soil.
3. Start on edges and work towards center of spot/stain.
 - a. Blot soil/stain with cloth.
 - b. Rinse cloth as needed.
4. Repeat process until spot/stain is removed.
5. Using a clean cloth, blot up any residual moisture.
6. Do NOT allow solution to dry on fabric.

Large, Stubborn Stains

1. Prewet fabric or carpet stain with water.
2. Spray onto stain and cover with clear plastic film for one hour.
3. Rinse with water, blot or remove excess water and allow it to dry.
4. Use ventilation if needed to speed up drying process.
5. Do NOT allow solution to dry on fabric or carpet.

Safety

Keep out of reach of children.
Refer to SDS prior to use and follow directions carefully.
Wear rubber gloves and eye protection.

Quick Specs

Size: 1-gal, 2/1-gal, 4/1-gal, 5-gal, 55-gal, 275-gal

Appearance: Light Amber Liquid

pH: 9-9.5

Flash Point: N/A

Solubility: 100% in Water

Stability: Very Stable
