Dr. KlarX™ Fabric Cleaner

Concentrated, Stain Remover, and deodorizing Fabric Cleaner

Product Info

Dr. KlarX™ Fabric Cleaner is a fresh-smelling concentrated cleaner, stain remover and deodorizer specifically designed as a spray application for fabrics.

It contains a registered antimicrobial to protect fabrics from odors and nuisances caused by mold, mildew, and algae.

It contains a deep penetrating emulsifier that penetrates and floats away even the most stubborn stains. It contains no carbon tetrachloride, naphtha, benzene, kerosene, gasoline, animal fat or other hazardous solvents that produce toxic fumes. It is VOC free and safe for the environment.

The inclusion of an EPA registered Antimicrobial in the formulation allows fabrics to: (1) Become more durable, (2) Maintain efficient wicking, (3) Reduce deep staining and odors, (4) Maintain increased moisture protection, (5) Eliminate fraying of fibers, (6) Increase surface protection, (7) Reduce allergens, and (8) Extend life of your fabric.

Where to Use

Dilute at 12 ounces per gallon and use as a ready-to-use spray application on all types of fabrics:

Nylon – Polyester – Polypropylene – Acrylic – Triexta – Olefin – Wool - Stain Resistant Fabrics

Primary Applications

- General fabric cleaning
- Stain removal.
- Lingering odor elimination.
- Fabric protection.

Use on fabrics, upholstery, furniture, rugs, carpet, and other water-safe soft surfaces.

Targeted Stain Removal and Odor Elimination

- Food stains.
- Coffee.
- Wine.
- Blood.
- Urine.
- Grease.
- Juice.
- Condiments.

Features & Benefits

- Nanotechnology Drives Cleaning Agents Deep into Surface
- Eco-Friendly Formulation
- Ozone Safe and Full VOC Compliance
- Surfaces become More Durable
- Increased Wicking Performance
- Increased Moisture Protection
- Reduce Fraying of Fibers
- Reduce Compaction
- Hydrophobic
- Anti-Static

Use Instructions

General Cleaning

1. Dilute concentrated solution 1:10 (1 ounce concentrate makes a 10-ounce ready-to-use solution when mixed with water)
2. Test for colorfastness on an inconspicuous area to confirm suitability for the type of fabric you are cleaning.
3. Remove loose soils with a damp, soft absorbent cloth.
4. Spray onto fabric and allow 1-5 minutes to penetrate. Do not allow product to dry on fabric.
5. Blot fabric with a soft absorbent cloth until the stain is removed. (Avoid rubbing fabric)
6. Repeat as needed for desired results.

Large, Stubborn Stains

1. Prewet stain with water.
2. Spray diluted solution on stain and cover with clear plastic film for one hour.
3. Rinse with water.
4. Repeat as needed. and use extraction or shampoo machine to clean and vacuum excess water and residue.

Tips

1. Some stubborn stains will require soft brushing.
2. Use as a pre-spotter for clothing before placing it in washing machine.
3. Replace or frequently rinse cleaning cloth and/or sponge that is being used for cleaning.

Storage

Keep away from children. Keep container closed when not in use. Store out of direct sunlight.

First Aid

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if irritation persists.

SKIN: Wash thoroughly any exposed effected body parts with soap and water. Consult a physician if irritation develops.

INGESTION: If this product is swallowed do not induce vomiting. If vomiting occurs, keep head below hips to prevent aspiration (breathing) of liquid into the lungs. Get emergency medical attention immediately.

Quick Specs

Size: 1-gal, 5-gal, 55-gal, 275-gal

Appearance: Tinted translucent

pH: 8.5-9.5

Flash Point: N/A

Solubility: 100% in Water

Stability: Very Stable
