

NewEraSeal™ Liquid Quartz

NewEraSeal™ Solar Panels NewEraSeal™ Liquid Quartz is an advanced concrete densifier, sealer, and hardener engineered with cutting-edge nano-materials to provide unmatched durability. This ready-to-use, colorless liquid deeply penetrates concrete surfaces, strengthening them against abrasion, chemicals, and moisture while eliminating dusting and pitting. Designed for eco-conscious applications, it meets stringent VOC compliance standards, ensuring a safer environment without compromising performance.

By forming a dense, protective structure within the concrete, NewEraSeal™ Liquid Quartz enhances surface integrity, providing long-term resistance to scratching, peeling, and atmospheric pollutants. Its unique formula not only delivers a permanent sheen with the ability to polish but also improves light reflectance, reduces carbon footprint, and safeguards against mold and mildew staining. Accepted by the USDA, this innovative solution sets a new standard for concrete protection and sustainability.

Benefits

- Deep concrete penetration
- Hardens & densifies surfaces
- Enhanced moisture resistance
- Dustproof & abrasion-resistant
- Permanent sheen & polishable
- Scratch & peel protection
- No yellowing or discoloration
- Improved light reflectance
- Easy ready-to-use application
- Photocatalytic pollutant reduction
- Lower carbon footprint
- Mold & mildew resistance
- Reduced pollutant soiling

- **Size:** 5-gal, 55-gal, and 275-gal
- **Appearance:** Odorless, Clear Liquid
- **pH:** 10.0
- **Boiling Point:** 212° F
- **Storage:** Between 40° F and 110° F

Features

- Eco-friendly Nano-biochemistry
- No hydrocarbons or solvents
- Non-hazardous formula
- Ozone-safe & VOC-compliant
- Long-lasting durability
- Enhances surface strength
- Prevents pitting & cracking
- Transparent & non-staining
