

BioCap™ All-in-One

BioCap™ All-in-One is a high-performance microbial formula designed to break down organic waste and pollutants quickly and effectively. Packed with over 30 non-pathogenic *Bacillus* and *Pseudomonas* strains—including aerobic, anaerobic, and facultative types—it harnesses nano-encapsulation to deliver 5+ billion active microorganisms per milliliter. This advanced technology targets oil hydrocarbons, hydrogen sulfide, grease, detergents, and phenols across a wide range of waste systems.

Standard and custom **BioCap™ All-in-One** blends are engineered to solve every day and complex environmental challenges—whether it is grease trap buildup, septic treatment, lagoon cleanout, or large-scale spill recovery. Ideal for municipal, industrial, and agricultural settings, BioCap™ transforms polluted environments into clean, functional systems with speed, sustainability, and ease.

Features

- 5B+ microbes per ml
- Dual aerobic/anaerobic strains
- Nano-encapsulated for longevity
- Enzyme-free liquid formula
- Fast microbial activation blend
- Non-toxic, non-pathogenic
- Reduces FOG, BOD, COD
- Works pH 4–14
- Simple liquid application
- VOC compliant product

Benefits

- Breaks down organic waste
- Cuts hydrogen sulfide odors
- Clears sludge by 70%
- Boosts system performance
- Custom-blended on demand
- Meets TMDL regulations
- Safe for environments
- Requires minimal effort
- Restores water clarity
- Industrial and home safe

- **Size:** 1-gal, 2/1-gal, 4/1-gal, Pails, Drums, and Totes
- **Appearance:** Light Yellow – Brown Liquid
- **pH:** 7-8
- **Solubility:** 99% in Water
- **Stability:** Stable
