

# NewEraStrip™ Graffiti Off

Eco-Friendly, Powerful, Reliable Graffiti Removal Solution

## Product Info

**NewEraStrip™ Graffiti Off** is a high-performance, solvent-based solution specifically designed to remove graffiti and paint with exceptional ease and effectiveness. Unlike many water-based products, this advanced formula penetrates deep into surfaces, breaking the molecular bond between the paint and the material underneath. It works on all surface types, making it an ideal choice for both urban spaces and private properties. Whether dealing with fresh graffiti or older, stubborn coatings, it ensures a clean and restored appearance without compromising the integrity of the surface.

Designed for versatility, **NewEraStrip™ Graffiti Off** delivers superior results on porous surfaces such as natural brick and concrete, where other removers often fall short. From painted street signs to delicate fiberglass structures, it eliminates unwanted markings with precision while preserving the original finish. This powerful formula is effective against solvent-based graffiti coatings, ink, marker, dye, enamel, and spray paint, making it an essential product for municipalities, businesses, and property owners aiming to maintain their spaces free from defacement.

Beyond its efficiency, this graffiti remover is formulated with environmental safety in mind. While strong enough to tackle even the toughest paint, it remains a responsible solution that minimizes impact on surroundings. Whether used in city cleanup efforts, construction restoration projects, or routine maintenance, **NewEraStrip™ Graffiti Off** offers an effortless way to restore surfaces to their original state, reinforcing the value of clean, graffiti-free environments in both public and private spaces. If you are looking for a reliable and effective way to remove unwanted paint, this solution ensures an easy and safe experience.

## Application Surfaces:

### Porous, Soft, and Hard.

- Brick
- Concrete
- Stone
- Stucco
- Rock
- Tile
- Fiberglass
- Aluminum
- Alloy
- Stainless steel
- Metal street signs

### Features

- Solvent-based graffiti remover
- Works on brick surfaces
- Removes old paint layers
- Cleans multiple surface types

### Benefits

- No damage to surfaces
- Versatile for many applications
- Fast and effective cleaning
- Environmentally safe graffiti remover

## BEFORE REMOVING GRAFFITI

- Test surfaces before using by applying a small amount to an inconspicuous area.
- DO NOT USE if surface marks, dulls, discolors, fades or if color transfers to a white cloth.
- Not recommended for used on faded or varnished surfaces, non-colorfast materials, or woodwork.

## USE INSTRUCTIONS

### POROUS SURFACES (BRICK, CONCRETE & STUCCO)

1. Spray affected area, wait 3–5 minutes.
2. Use brush as needed to loosen dried paint.
3. Use a hose or power-wash to remove completely.

## HARD AND SOFT SURFACES (STREET SIGNS, TILE, ETC.)

1. Spray stain thoroughly, wait 60 seconds.
2. Using a damp cloth, remove paint.
3. Wipe with a clean disposable towel or cloth.
4. Repeat, as necessary.

## Notes

Test surfaces for suitability.

Do not use on glass surfaces.

The duration of protection will depend upon the cleaning methods and cleaning products used.

This product is NOT SUITABLE for asphalt surfaces.

## Clean-up

Use mineral spirits or xylene to clean tools and equipment.

## CAUTION

Use in well-ventilated areas only.

Do not mix with other cleaning products or water.

Keep away from open flames and heat.

## FIRST AID

Skin Contact: Rinse off with soap and water.

Eye Contact: Flush eyes with water.

Ingestion: DO NOT induce vomiting; see a physician.

Inhalation: Relocate the person to fresh air or ventilation.

## STORAGE

Keep container closed when not in use.

- **Size:** 1-gal bottles, pails
- **Appearance:** Clear to light tint
- **Viscosity:**
- **Boiling Point:** 153-210°C
- **Flash Point:** 110°F
- **Storage:** 40°F to 90°F
