

NewEraStrip™ Graffiti Off

NewEraStrip™ Graffiti Off is a powerful, solvent-based solution designed for fast and effective graffiti removal. Unlike traditional water-based removers, its advanced formula penetrates deep into surfaces, breaking the molecular bond between the paint and the material underneath. Ideal for urban spaces and private properties alike, it works on all surface types and restores surfaces without causing damage, whether tackling fresh graffiti or stubborn, long-standing coatings.

Offering unmatched versatility, **NewEraStrip™ Graffiti Off** delivers superior results on porous surfaces like natural brick and concrete, where other removers often fail. It eliminates unwanted markings from painted street signs, fiberglass structures, and more while preserving the original finish. This advanced formula is highly effective against solvent-based graffiti coatings, ink, markers, dyes, enamel, and spray paint—making it a trusted solution for municipalities, businesses, and property owners looking to maintain clean, professional spaces.

Features

- **Solvent-Based Deep-penetrating formula**—removes paint fast
- **Works on all surfaces**—urban and private use
- **Superior on porous materials**—brick and concrete
- **Preserves original finish**—no surface damage
- **Removes multiple coatings**—ink, dye, spray paint
- **Removes old paint**—cuts through tough layers
- **Eco-conscious solution**—minimizes environmental impact
- **Cleans various surfaces**—versatile application

Benefits

- **Quick cleanup**—saves time
- **Versatile use**—fits all settings
- **Surface-safe**—no damage left behind
- **Protects surfaces**—prevents deterioration
- **Keeps spaces clean**—supports maintenance
- **Efficient**—quick, effective results
- **Eco-friendly**—safe for environments
- **Cuts costs**—reduces repainting needs

- **Size:** 1-gal bottles, pails
- **Appearance:** Clear to light tint
- **Viscosity:**
- **Boiling Point:** 153-210°C
- **Flash Point:** 110°F
- **Storage:** 40°F to 90°F
