Dr. KlarX™ Trauma Clean

Cleans and Deodorizes Trauma and Crime Scene Surfaces

Product Information

Dr. KlarX™ Trauma Clean is a biodegradable solution formulated to clean and deodorize crime and trauma scenes. It effectively removes organic stains from a variety of hard surfaces including concrete, wood, tile, and asphalt. While powerful in lifting residue, it is not a disinfectant or sanitizer.

This eco-friendly product works with mops, carpet machines, and pressure washers. Its no-residue formula ensures a clean, streak-free finish on floors and walls, making it ideal for professional restoration tasks and heavy-duty maintenance.

Designed for use in biohazard cleanup, it penetrates porous surfaces to lift tough organic matter. Trusted by cleanup teams and first responders, it serves as a reliable first step before applying sanitization protocols—delivering high performance while supporting environmental responsibility.

Where to Use

Use to clean and remove:

- Urine stains
- Bodily fluid stains
- Blood stains
- Tissue stains
- Protein stains
- Many other stains related to crime and trauma scene cleanup.

Use on all types of hard surfaces:

- Vinyl tiles
- Ceramic tiles
- Plastic surfaces
- Smooth concrete floors
- Brick
- All types of masonry
- Manufactured hard surfaces.

Features

- Eco-Friendly and biodegradable
- Full VOC Compliance
- Odorless
- Non-flammable
- Water soluble

Benefits

- Use indoors or outdoors
- Use full strength or dilute
- Use on all types of hard surfaces
- Specially formulated for crime and trauma scene cleanup
- Apply with mop or pressure-washer
- Can be used with carpet cleaning equipment

Use Instructions

1. Avoid using when temperatures are above 140° F and below 40° F.
2. Can be mopped, sprayed, or wiped on surfaces. Can be used with power washer.
3. Protect all food and drink storage areas from overspray.

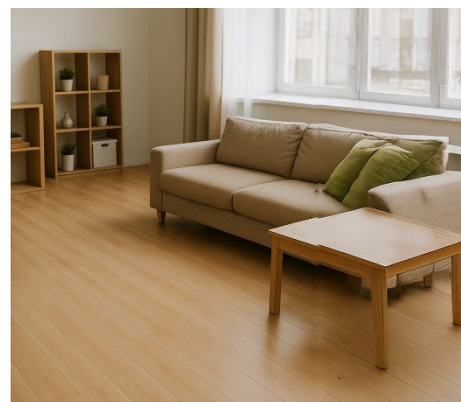

4. Cover all food, drink, and non-cleaning surface before using.
5. Pre-Treatment
 - a. Apply directly to effected areas at full-strength or diluted based on the severity of the soils and stains.
 - b. Let soak for 5-10 minutes before washing or rinsing.
6. After pretreatment wash and rinse effected areas based on your cleaning method.
7. Repeat as needed.

Suggested Dilutions

| | |
|---------------|--------------|
| Full Strength | Severe soils |
| 1:1 dilution | Medium soils |
| 1:4 dilution | Light soils |

Storage

Store between 40°F and 90°F (room temperature) and away from direct sunlight. Keep container closed when not in use. Product can be stored up to three years. If product is stored for a long time, lightly agitate, or shake well before use.

Quick Specs

Size: 4x1-gal bottles, 5-gal Pails, and 55-gal Drums
Properties: Red liquid
pH: 9.0 – 10.0
Eco: Non-pollutant for air, water, and soil
